Introduction Note By Chairman

Now a days Computer networks are a vital part of any organisation for Resource Sharing, Database Access, Ease of communication etc. Networks allow people to communicate instant messaging and makes the transformation of information easier, more efficient and less expensive.

Considering the needs of people concern we are going to publish electronically a news journal, as an spokesman of this municipality, in the form of e-news letter containing various information regarding development work, Economic activities and social welfare of this municipality. This letter is not only to inform people about activities of the municipality but also for getting valuable suggestions which will enrich us in the long run. The rapid use of e-world will make progress to fulfill the growing demands of its people for better life.

To motivate citizens to enhance their participation we are happy to publish the 1st issue of municipal e-news letter (Vol-1 No-1) which is uploaded in our website at www.kalyanimunicipality.org.

The e-news letter would strike to bridge the information gaps by way of dissemination and linking municipality with the potential citizens. Any suggestion, for betterment of this e-news letter would be highly appreciated.

Chairman
